

# DROMOS LABS is a financial technology company building onchain products that give all participants a greater stake in the new economy.

It is the core contributing development company behind [Aerodrome](#) and [Velodrome](#), two of the Ethereum ecosystem’s leading decentralized exchanges. By combining leading tech with economic innovation, Dromos designs better systems that deliver uncommon value.

Alexander Cutler **CEO**

As CEO of Dromos Labs, Alexander is committed to creating products that shape a better economic era. His career began in political organizing, leading mobilization efforts at the state and federal level. He then held various roles at Apple, including leading a global talent development program, and later worked as a consultant helping top tech brands like Meta and Microsoft tackle their toughest challenges.

Chris Boulos **President**

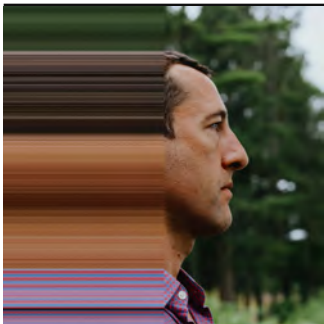

Chris is an expert in business and financial systems, drawing from his background as a research economist, hedge fund analyst, and strategy consultant with the Boston Consulting Group. As President of Dromos Labs, Chris works with institutional partners and designs new organizational frameworks. Chris holds a BA from Columbia University and an MBA from the University of Chicago Booth School of Business.

Stas Suşcov **CTO**

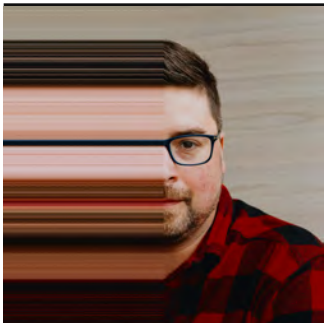

Stas brings over 15 years of open source development and startup experience to DeFi. A two-time Google Summer of Code alum and long-term OSS contributor, he has led tech at over 10 startups in the US and EU. Guided by the strong belief that open systems are simply better, as CTO, he leads product development at Dromos toward an even more accessible onchain experience.

Jim Petrila **CLO**

Jim has a deep legal background in the issues facing the crypto community. He brings over a decade of experience in private practice, at the Department of Justice, and at a centralized exchange to bear when charting a compliant path for Dromos Labs. As Dromos Labs' CLO, Jim works hard to make permissionless access to institutional-grade financial products a reality.

Dan Wick **CFO**

Dan believes that strong values are critical to creating success. In his prior career in the US education sector, he worked with schools to use data to grow operational capacity and academic performance. As CFO of Dromos Labs, he brings that same mindset to ensuring the organization and protocol strategy optimally distributes value to all stakeholders. He has an MPA from the Princeton School of Public and International Affairs.

David Annis **COO**

David Annis is the Chief Operating Officer at Dromos Labs. With more than two decades of experience in creative production, agency leadership, and operational strategy, he has helped scale teams, design systems, and deliver brand and product launches across industries. His work is rooted in building resilient organizations where creativity and collaboration drive impact.
